Lost & Found Links and Websites

Several years ago, I experimented with a website to post my genealogy information.
    Freds_Genealogy - @ 2010
    Not found with The Way Back Machine,
        was at http://www.fredsgeneology.com/
    Not found with The Way Back Machine,
        was at http://fredsgenealogy.weebly.com/

    I learned a lot, BUT I did not have sufficient time/interest
    to keep up with the site.

I have discovered that some of the old items of interest have disappeared due to
several reasons.
    Owner abandonment due to loss of interest/support.
    ISP changes.
    Cleanup of untimely data.

Tried to copy from The Way Back Machine
