NOTES:

1. Personally Identifiable Information [PII] is Information which could be used online to alter or steal credit information.
  - To reduce the possibility that this genealogy information might contain PII, I am not publishing birthdates, birthplaces, or places of residence for persons born after 1900 for whom I do not have death information.  
In order to protect PII, I will make reasonable efforts to remove PII prior to posting/re-posting any documentation.
  - Also, to reduce the possibility that the online sources I use might be used to obtain PII, I am not listing some those sources, and trying to keep my use of them private.
2. Some APPARENT mis-spellings and duplicated names are uncorrected and listed separately in the Index section.
  - They will be corrected/removed as the data is reviewed and updated.
3. In all my genealogy pages, I am following the peculiar convention that the married names are in brackets, not the maiden name. I find this convention easier to follow and a little more visually pleasing when showing multiple marriages.
  - Unfortunately, some of my earlier files are based on the maiden name in brackets and I have not yet discovered/corrected these discrepancies.
4. In the Tree Chart pages, I am following several peculiar conventions.
  - a. I am following a convention where fathers are listed above and mothers are listed below the subject person.
  - b. I am following a convention where fathers' and mothers' names are preceded by their relationship to the person at the beginning of the tree, where "F" relates to the "Father Of" and "M" relates to the "Mother Of" a person.  
For Example, OMMF is the subject person's Mother's Mother's Father, the subject person's Grand-Mother's Father, or the subject person's Great-Grand-Father.
5. A fun addition to your genealogy research. [What Was There](#) online pictures in the USA, EUROPE, and a few others.
6. General Reference Documents:
