

Fred Browne's Genealogy Website 2013

The Plan

Several years ago, I experimented with a website to post my genealogy information.

Freds_Genealogy - @ 2010

Not found with The Way Back Machine, was at <http://www.fredsgenealogy.com/>

Not found with The Way Back Machine, was at <http://fredsgenealogy.weebly.com/>

I learned a lot, BUT I did not have sufficient time/interest to keep up with the site.

I have discovered that some of the old items of interest have disappeared due to several reasons.

Owner abandonment due to loss of interest/support.

ISP changes.

Cleanup of untimely data.

I finally came up with a [process](#) which works for me when recovering and restoring old webpages.

When I find an item of interest,

I plan to save a link to the item of interest,

sometimes saving a link to other items posted,

sometimes saving a link to the overall website,

To preserve the content of interest,

I plan to create a word document containing most of the material of interest and the embedded links and hyperlinks, but not the adware. [My DOC]

I also plan to create a PDF document containing most of the material of interest and the embedded links and hyperlinks, but not the adware. [My PDF]

Sometimes, I plan to create a HTML document containing links to the embedded links and hyperlinks. [My HTML]

I PLAN to host my own material in JPG, DOC and/or PDF formats as appropriate.

It is my hope that readers who are really interested may save either the [My DOC] or [My PDF] summaries for future reference. It is my hope that the readers will respect the rights of the original owners as long as they can be identified.
